## Right Care, at the Right Place.

Our Patient Advisors at the practice are here to help guide you to the right care for your healthcare needs. There are a range of expert healthcare professionals who can help you and by asking you a few questions our patient advisors will be able to help get you to the right person.

**Scotland is currently facing significant challenges recruiting new GP's, which is leading to their being a national shortage of GP's, with a quarter of health centres currently operating under the required number of GP's. As a result of this there may be times when we can only offer emergency appointments.**

NHS Inform is Scotland's national health information website. [www.nhsinform.scot](http://www.nhsinform.scot)  
Here you will find lots of useful and accurate information to help with your health needs.

**In an emergency you should always go directly to A&E or call 999**

## Meet the Team

### GPs

Dr Ross Mitchell
